- **NOTE 1 –** If receiver email address is provided for a shipment then Deutsche Post will automatically send email notifications (a service enhancement code does not need to be used with the shipment).
- **NOTE 2 –** The DHL eCommerce integration allows a maximum shipment value of \$800.
- **NOTE 3** To send Royal Mail shipments DDP, this will need to be arranged with your Royal Mail account manager.
- **NOTE 4 –** Multipiece shipments are not supported for shipments to GB; only single piece shipments can be created for shipments to GB addresses. For all other destinations, multi piece shipments are supported.
- **NOTE 5 –** Yodel only supports multipiece for domestic shipments, excluding Northern Ireland. For shipments to Northern Ireland and the Channel Islands, only single piece shipments are supported.
- NOTE 6 Incoterms are set by DX at customer account level, not determined by the integration.
- **NOTE 7 –** The service FedEx International Connect Plus (FICP) supports single piece shipments only. All other FedEx services support multi piece shipments.
- **NOTE 8 –** GLS Germany can only be used for shipping from Germany domestically within Germany and to other EU destinations. The integration does not support dutiable shipments; therefore incoterms are not applicable.
- **NOTE 9 –** Parcel Force accepts only one hazardous item in a shipment.
- **NOTE 10 –** Royal Mail and DHL Express support shipping multiple hazardous goods in a shipment.
- **NOTE 11** DDP incoterms can only be used for shipments to Europe using services Euro Priority and Euro Priority Pack. For these services, DDP incoterms must be used. For all other international shipments (i.e. shipments to ROW countries or shipments to EU countries using any other services), DDU incoterms must be used.
- **NOTE 12** The Whistl API integration supports multiplece for domestic shipments only. For international destinations, only single piece shipments are supported.
- **NOTE 13** GLS Austria can only be used for shipping from Austria domestically within Austria and to other EU destinations. The integration does not support dutiable shipments; therefore incoterms are not applicable.
- **NOTE 14** GLS France can only be used for shipping from France domestically within France and to other EU destinations. The integration does not support dutiable shipments; therefore incoterms are not applicable.
- **NOTE 15** GLS Belgium can only be used for shipping from Belgium domestically within Belgium and to other EU destinations. The integration does not support dutiable shipments; therefore incoterms are not applicable.
- **NOTE 16** Amazon Shipping can only be used for shipping domestically, therefore incoterms are not applicable.

# 2. Carrier-Specific Field Requirements

Some carriers have additional requirements above and beyond the standard Intersoft Intelligent Shipper® field validation. These carriers and their requirements are listed in the tables below. For shipments using these carriers, the fields listed below must be provided as per the stated carrier requirement in order for the shipment to be created successfully.

### 2.1. Amazon Shipping Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement  |
|--|--|
| shipperContactName                           | Mandatory for all shipments  |
| shipperCounty                                | Mandatory for all shipments  |
| destinationCounty                            | Mandatory for all shipments  |
| length                                       | Mandatory for all shipments  |
| width  | Mandatory for all shipments  |
| height                                       | Mandatory for all shipments  |
| unitOfMeasurement                            | Mandatory for all shipments  |
| weight                                       | Mandatory for all shipments  |
| weightId                                     | Mandatory for all shipments  |
| itemValue                                    | Mandatory for all shipments  |
| itemQuantity                                 | Mandatory for all shipments  |
| itemNetWeight                                | Mandatory for all shipments  |
| shipperReference2                            | Mandatory for On Amazon shipments – must be used to provide the Amazon Order ID      |
| itemSku                                      | Mandatory for On Amazon shipments – must be used to provide the Amazon Order Item ID |
| itemDescription                              | Mandatory for shipments to Northern Ireland only                                     |
| Item HS Code                                 | Mandatory for shipments to Northern Ireland only                                     |

### 2.2. Asendia Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement                                  |
|--|--|
| Shipping Charges                             | Mandatory if shipping charges apply for the shipment |
| Pre-Registration Number                      | Mandatory when shipping charges are provided for the |
|  | shipment   |

### 2.3. Deutsche Post Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement   |
|--|---|
| Item HS Code                                 | Mandatory for Dutiable shipments. Must be 6, 8 or 10 digits |
|  | with a maximum of one leading 0.                            |

# 2.4.DHL Express Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement              |
|--|----------------------------------|
| Invoice Number                               | Mandatory for Dutiable shipments |
| Invoice Date                                 | Mandatory for Dutiable shipments |
| Item Country of Origin                       | Mandatory for Dutiable shipments |
| Package Length, Width and Height             | Mandatory for all shipments      |

# 2.5.DHL Germany Field Requirements

| Intersoft Intelligent Shipper® | Carrier Requirement              |
|--------------------------------|----------------------------------|
| Field Name                     |                                  |
| Destination Email Address      | Mandatory for all shipments      |
| Item HS Code                   | Mandatory for Dutiable shipments |
| Item Country of Origin         | Mandatory for Dutiable shipments |

# 2.6.DHL eCommerce (formerly DHL Parcel) Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement   |
|--|---|
| Invoice Date                                 | Mandatory for shipments to Northern Ireland or the Channel Islands  |
| Invoice Number                               | Mandatory for shipments to Northern Ireland or the Channel Islands  |
| Shipper EORI Number                          | Mandatory for shipments to the Channel Islands.  Mandatory for B2B shipments to Northern Ireland that have a Pre-Registration Number provided with Pre-Registration Type UKIMS. |
| Shipping Charges                             | Mandatory for shipments to Northern Ireland or the Channel Islands  |
| Item HS Code                                 | Mandatory for shipments to Northern Ireland or the Channel Islands. A 10-digit HS code is mandatory for B2B shipments to Northern Ireland.                                      |
| Item Country of Origin                       | Mandatory for shipments to Northern Ireland or the Channel Islands  |

# 2.7.DPD Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement               |
|--|-----------------------------------|
| Item HS Code                                 | Mandatory for Dutiable shipments. |

| Intersoft Intelligent Shipper®<br>Field Name                    | Carrier Requirement  |
|---|--|
|   | An 8-10 digit code is mandatory for B2B shipments to Northern Ireland that do not have a Pre-Registration Number provided with Pre-Registration Type UKIMS.  |
| Item Country of Origin  | Mandatory for Dutiable shipments   |
| Shipper VAT Number and Shipper EORI Number                      | Must be provided for dutiable shipments if the shipper is VAT or EORI registered. If VAT and EORI are both provided, only VAT number will be sent to DPD.  If neither VAT or EORI number are provided, a value of "GBUNREG" will be sent to DPD to indicate the shipper is not VAT or EORI registered.  Shipper EORI is mandatory for B2B shipments to Northern Ireland where a Pre-Registration Number provided with Pre-Registration Type UKIMS. |
| Pre-Registration Number with a Pre-                             | When providing Pre-Registration Number for B2B shipments   |
| Registration Type UKIMS   | from GB to Northern Ireland, the sender Pre-Registration Number must be used, not the receiver Pre-Registration Number.  |
| Pre-Registration Number with a Pre-<br>Registration Type of GST | Mandatory for shipments to Australia only  |

# 2.8.DPD Germany Field Requirements

| Intersoft Intelligent Shipper®    | Carrier Requirement   |
|-----------------------------------|---|
| Field Name                        |   |
| Shipper Email Address             | Mandatory for dutiable shipments                            |
| Shipper VAT Number                | Mandatory for dutiable shipments                            |
| Shipper EORI Number               | Mandatory for dutiable shipments                            |
| Destination Email Address         | Mandatory for dutiable shipments                            |
| Item HS Code                      | Mandatory for dutiable shipments                            |
| Quoted Landed Cost                | Mandatory for dutiable shipments                            |
| Declared value and Declared Value | For dutiable shipments, must be provided in the currency of |
| Currency                          | the destination country                                     |

# 2.9.DPD Ireland Field Requirements

| Intersoft Intelligent Shipper® Field Name | Carrier Requirement              |
|---|----------------------------------|
| Shipper EORI Number                       | Mandatory for Dutiable shipments |
| Shipping Charges                          | Mandatory for Dutiable shipments |

# 2.10. DPD Local Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement  |
|--|--|
| Item HS Code                                 | Mandatory for Dutiable shipments.                            |
|  | An 8-10 digit code is mandatory for B2B shipments to         |
|  | Northern Ireland that do not have a Pre-Registration         |
|  | Number provided with Pre-Registration Type UKIMS.            |
| Item Country of Origin                       | Mandatory for Dutiable shipments                             |
| Shipper VAT Number and Shipper               | Must be provided for dutiable shipments if the shipper is    |
| EORI Number                                  | VAT or EORI registered. If VAT and EORI are both provided,   |
|  | only VAT number will be sent to DPD.                         |
|  | If neither VAT or EORI number are provided, a value of       |
|  | "GBUNREG" will be sent to DPD to indicate the shipper is not |
|  | VAT or EORI registered.                                      |
|  | Shipper EORI is mandatory for B2B shipments to Northern      |
|  | Ireland where a Pre-Registration Number provided with Pre-   |
|  | Registration Type UKIMS.                                     |
| Pre-Registration Number with a Pre-          | When providing Pre-Registration Number for B2B shipments     |
| Registration Type UKIMS                      | from GB to Northern Ireland, the sender Pre-Registration     |
|  | Number must be used, not the receiver Pre-Registration       |
|  | Number.  |
| Pre-Registration Number with a Pre-          | Mandatory for shipments to Australia only                    |
| Registration Type of GST                     |  |

# 2.11. DPD Netherlands Field Requirements

| Intersoft Intelligent Shipper®    | Carrier Requirement                                   |
|-----------------------------------|---|
| Field Name                        |   |
| Shipper Email Address             | Mandatory for Shipments to GB addresses               |
| Shipper VAT Number                | Mandatory for Shipments to GB addresses               |
| Shipper EORI Number               | Mandatory for Shipments to GB addresses               |
| Destination Email Address         | Mandatory for Shipments to GB addresses               |
| Quoted Landed Cost                | Mandatory for Shipments to GB addresses               |
| Invoice Number                    | Mandatory for Shipments to GB addresses               |
| Invoice Date                      | Mandatory for Shipments to GB addresses               |
| Item HS Code                      | Mandatory for Shipments to GB addresses               |
| Item Country of Origin            | Mandatory for Shipments to GB addresses               |
| Declared value and Declared Value | For shipments to GB addresses, Declared Value must be |
| Currency                          | provided in GBP                                       |

# 2.12. Evri Field Requirements

| Intersoft Intelligent Shipper® Field Name | Carrier Requirement                            |
|---|--|
| Business Transaction Type                 | Must be B2C; Evri do not support B2B shipments |

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement   |
|--|---|
| Shipper EORI number                          | Mandatory for international shipments and shipments to<br>Northern Ireland (GB addresses with a postcode beginning<br>BT) |
| Shipper VAT number                           | Mandatory for international shipments and shipments to<br>Northern Ireland (GB addresses with a postcode beginning<br>BT) |
| Item HS Code                                 | Mandatory for international shipments and shipments to<br>Northern Ireland (GB addresses with a postcode beginning<br>BT) |
| Item SKU                                     | Mandatory for international shipments and shipments to<br>Northern Ireland (GB addresses with a postcode beginning<br>BT) |
| Item Country of Origin                       | Mandatory for international shipments and shipments to<br>Northern Ireland (GB addresses with a postcode beginning<br>BT) |
| Package Length, Width and Height             | Mandatory for all shipments   |

### 2.13. FedEx Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement  |
|--|--|
| Destination Email Address                    | Mandatory when using the FedEx International Connect Plus (FICP) service |

# 2.14. FedEx Cross Border UK (formerly P2P) Field Requirements

| Intersoft Intelligent Shipper® Field Name | Carrier Requirement                                       |
|---|---|
| Item HS Code                              | Mandatory for Dutiable shipments                          |
| Item SKU                                  | Mandatory for Dutiable shipments                          |
| Shipper EORI number                       | For shipments to EU countries using the P2P service FIC – |
|   | Tracked Worldwide and DDP incoterms, either an EORI       |
| Pre-Registration Number                   | number or an IOSS number must be provided (IOSS number    |
|   | is provided in the Pre-Registration Number field)         |

### 2.15. Landmark Global Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement   |
|--|---|
| Destination County                           | Mandatory for shipments to USA, Canada, Australia, New Zealand, Chile. Remove state value for Hungary and Singapore |
| Item SKU                                     | Mandatory for Dutiable shipments  |

# 2.16. Parcelforce Field Requirements – API Integration

| Intersoft Intelligent Shipper®<br>Field Name | Carrier Requirement                                       |
|--|---|
| Shipper EORI number                          | For shipments to EU countries using DDP incoterms, either |
| Pre-Registration Number                      | an EORI number or an IOSS number must be provided (IOSS   |
|  | number is provided in the Pre-Registration Number field)  |

### 2.17. Royal Mail Field Requirements

| Intersoft Intelligent Shipper®<br>Field Name                 | Carrier Requirement  |  |
|--|--|--|
| Destination Email Address                                    | Conditional – may be mandatory for dutiable shipments, dependent on destination country. Mandatory for shipment using DDP incoterms.   |  |
| Shipper EORI number<br>Receiver EORI number                  | Mandatory for B2B shipments from GB to Northern Ireland.   |  |

| Shipping Charges                             | Mandatory for shipments to Northern Ireland and the Channel Islands |  |  |
| Item Country of Origin                       | Mandatory for shipments to Northern Ireland and the Channel Islands |  |  |

#### 3. Carrier Service Enhancements

The tables below list the service enhancements available for each carrier integration that support enhancements. Please refer to your carrier Account Manager to confirm which enhancements are available for which services.

#### 3.1. Asendia Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints |
|---------------------|-----------------------------|------------------------------|
| Email Notification  | Receiver email address      | N/A                          |

### 3.2.DHL Express Service Enhancements

| Service Enhancement                             | Supporting Data<br>Required | Business Rules / Constraints   |
|---|-----------------------------|--|
| Consequential Loss £750- Loss                   | N/A                         | N/A  |
| Compensation                                    |                             |  |
| Consequential Loss £1000- Loss Compensation     | N/A                         | N/A  |
| Consequential Loss £2500- Loss<br>Compensation  | N/A                         | N/A  |
| Consequential Loss £5000- Loss Compensation     | N/A                         | N/A  |
| Consequential Loss £7500 - Loss<br>Compensation | N/A                         | N/A  |
| Consequential Loss £10000- Loss<br>Compensation | N/A                         | N/A  |
| Saturday Delivery                               | N/A                         | Shipment date and service must equal a Saturday delivery (e.g. if shipment date is a Thursday and a Next Day service is used, Saturday Delivery enhancement cannot be used as the shipment will arrive on Friday). |
| GO GREEN  | N/A                         | Go Green is DHL's sustainability initiative.<br>Customers must register to use Go Green<br>with DHL. When this enhancement is<br>used the Go Green logo is displayed on<br>the shipment label.                     |
| Adult Signature                                 | N/A                         | N/A  |

### 3.3. DHL Germany Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints           |
|---------------------|-----------------------------|--|
| Preferred Location  | Safeplace                   | Safeplace must be populated when the   |
|                     |                             | Preferred Location enhancement is used |
| Preferred Neighbour | Safeplace                   | Safeplace must be populated when the   |
|                     |                             | Preferred Neighbour enhancement is     |
|                     |                             | used                                   |
| Preferred Day       | Destination Email           | Destination Email Address must be      |
|                     | Address                     | populated when the Preferred Day       |
|                     |                             | enhancement is used                    |

### 3.4.DHL Parcel Service Enhancements

| Service Enhancement                | Supporting Data<br>Required | Business Rules / Constraints           |
|------------------------------------|-----------------------------|--|
| Signature service to specified     | N/A                         | DHL Parcels shipments must always      |
| address only                       |                             | contain one of these service           |
| Signature service to the specified | N/A                         | enhancements, to specify the signature |
| address & neighbour                |                             | option required for the shipment. If a |
| Leave safe at specified address or | N/A                         | signature enhancement is not included  |
| signature service to neighbour     |                             | the shipment will fail.                |

#### 3.5.DPD Service Enhancements

| Service Enhancement         | Supporting Data<br>Required                                     | Business Rules / Constraints   |
|-----------------------------|---|--|
| Proof of Identity           | N/A   | Only one of the available enhancements can be used per shipment.   |
| Proof of Age                | N/A   | Only one of the available enhancements can be used per shipment.   |
| Pin Required                | Receiver email<br>address or Receiver<br>mobile phone<br>number | Only one of the available enhancements can be used per shipment. Either receiver email address or receiver mobile phone number must be provided so that the Pin can be sent to the receiver by email or SMS. If neither are available, DPD will fail delivery of the shipment at the doorstep. |
| Pin Required & Proof of age | Receiver email<br>address or Receiver<br>mobile phone<br>number | Only one of the available enhancements can be used per shipment. Either receiver email address or receiver mobile phone number must be provided so that the Pin can be sent to the receiver by email or SMS. If neither are available,   |

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints                            |
|---------------------|-----------------------------|---|
|                     |                             | DPD will fail delivery of the shipment at the doorstep. |

# 3.6.DPD Germany Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints   |
|---------------------|-----------------------------|--|
| Email Notification  | Receiver email address      | Can only be used with the carrier service DPD Classic. The notification language |
| SMS Notification    | Receiver phone number       | must be set in the Integration screen.   |

#### 3.7.DPD Ireland Service Enhancements

| Service Enhancement          | Supporting Data<br>Required | Business Rules / Constraints   |
|------------------------------|-----------------------------|--|
| Email Notification           | Receiver email address      | N/A  |
| SMS Notification             | Receiver phone number       | N/A  |
| Extra Insurance              | N/A                         | Customer must agree insurance amount with DPD Ireland before using this enhancement. |
| Delivery Option – Safe place | Safe place                  | Only one of these enhancements can be  |
| Delivery Option – Neighbour  | N/A                         | used per shipment.   |
| Delivery Option – Letterbox  | N/A                         |  |

### 3.8.DPD Local Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints          |
|---------------------|-----------------------------|---------------------------------------|
| Proof of Identity   | N/A                         | Only one of these enhancements can be |
| Proof of Age        | N/A                         | used per shipment.                    |

#### 3.9.DPD Netherlands Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints              |
|---------------------|-----------------------------|---|
| Email Notification  | Receiver email              | Can only be used with the carrier service |
|                     | address                     | Predict B2C DPD Home. The notification    |
| SMS Notification    | Receiver phone              | language must be set in the Integration   |
|                     | number                      | screen.                                   |

### 3.10. Evri Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints   |
|---------------------|-----------------------------|--|
| SMS Notification    | Receiver phone number       | The SMS Alert Group Code allocated to the customer account by Evri must be set |
|                     | Hullibel                    | in the integration screen.   |

#### 3.11. FedEx Service Enhancements

| Service Enhancement                | Supporting Data<br>Required | Business Rules / Constraints                |
|------------------------------------|-----------------------------|---|
| On Delivery Notification           | Receiver email              | N/A   |
|                                    | address                     |   |
| On Estimated Delivery Notification | Receiver email              |   |
|                                    | address                     |   |
| On Exception Notification          | Receiver email              |   |
|                                    | address                     |   |
| On Shipment Notification           | Receiver email              |   |
|                                    | address                     |   |
| On Tender Notification             | Receiver email              |   |
|                                    | address                     |   |
| Adult (signature enhancement)      | N/A                         | N/A   |
| Direct (signature enhancement)     | N/A                         | N/A   |
| Indirect (signature enhancement)   | N/A                         | N/A   |
| No Signature Required              | N/A                         | N/A   |
| Saturday Delivery                  | N/A                         | Shipment date and service must equal a      |
|                                    |                             | Saturday delivery (e.g. if shipment date is |
|                                    |                             | a Thursday and a Next Day service is        |
|                                    |                             | used, Saturday Delivery enhancement         |
|                                    |                             | cannot be used as the shipment will         |
|                                    |                             | arrive on Friday).                          |
| Enhanced Transit Liability         | N/A                         | If the enhancement is used with a           |
|                                    |                             | multipiece shipment, the items must be      |
|                                    |                             | assigned to packages by populating the      |
|                                    |                             | packageId field in the Packages and Items   |
|                                    |                             | element of the createShipmentRequest.       |

### 3.12. GLS Austria Service Enhancements

| Service Enhancement | Supporting Data<br>Required | Business Rules / Constraints              |
|---------------------|-----------------------------|---|
| 0900 Hours          | N/A                         | Can only be used with the Express service |
